## SUMMARY

Computer Science undergraduate with hands-on experience building AI-driven and agentic systems, including Retrieval-Augmented Generation (RAG) pipelines, intelligent document parsing, and automated monitoring platforms, alongside full-stack development across the MERN and Java/Spring ecosystems. OCI-certified in Generative AI. Eager to contribute as an AI/ML Engineer, working across data curation, model fine-tuning, evaluation, and deployment to solve messy, real-world problems.

| <b>GovtWatch-AI - Govt Website &amp; Regulatory Document Monitoring Platform</b> - React.js, TypeScript, Node.js, Express.js, MongoDB, Puppeteer, Cheerio                                                                                                                                                                                                                                                                                                                                                                                                      |
| <ul style="list-style-type: none"><li>Built an automated, agent-style monitoring platform that continuously tracks, scrapes, and monitors updates from critical Indian government portals (SEBI, MRPL, MeitY).</li><li>Developed intelligent PDF document text extraction, historical change-detection algorithms, and custom keyword alert mechanisms to automatically flag regulatory changes.</li><li>Designed a responsive analytics dashboard with CSV/PDF report exports, automated email notifications, and Role-Based Access Control (RBAC).</li></ul> |

## SKILLS

- Languages: C, C++, Java, JavaScript, TypeScript
- Core CS: Object-Oriented Programming (OOP)
- AI & Automation: AI Agents & agentic workflows, Generative AI fundamentals (OCI certified), Retrieval-Augmented Generation (RAG), workflow automation, intelligent document parsing (Puppeteer, Cheerio), monitoring & change-detection alerting systems
- Full-Stack Web Development: React.js, Node.js, Express.js, Spring Boot, PHP, HTML5, CSS3, Tailwind CSS, Bootstrap
- Databases: MongoDB, MySQL
- Tools & Platforms: Git/GitHub, VS Code, JWT Auth, RBAC, XAMPP/WAMP, Linux, Windows

## CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional - Oracle
- Full Stack Development - Udemy (2024)

## LEADERSHIP & ACHIEVEMENTS

- Secured 5th place in a Capture The Flag (CTF) cybersecurity competition among 100+ participants.
- Winner, Inter-University Volleyball Championship, Nitte University (2023).
- Runner-up, Inter-University Volleyball Championship, Nitte University (2024).
